

SMARTPARC UNIT 1, HELLOFRESH

This new food processing facility is to be the new home of leading recipe box brand HelloFresh and is creating 450 jobs in the Derby area. The new facility will measure approximately 132m long and 78m wide on completion.

Our involvement on the project has been the structural frame design, fabrication and erection of 545 tonnes of steelwork – along with supply and installation of 950m² of metal decking to the office and the installation of all precast stairs and lift shaft units.

FEATURES

- Frame & Connection Design
- Detailing, fabrication and erection of Structural Steelwork
- Cold-Rolled Rails
- Metaldecking
- Precast installation
