

# TEESWORKS QUAY FACILITIES BUILDING

**The Quay Facilities Building is MetStructures second project to be awarded on the Tesevorks Industrial Development project site.**

The contract, awarded by Graham Construction was for the manufacture and erection of 60tn of off-site intumescent coated structural steel, along with the supply and installation of all decking, concrete, cladding and windows and doors.

When operational, the base will help service the huge quay with offices, a visitor reception, staff facilities, and meeting rooms, alongside a flexible open plan warehouse space.
